

Custom Assessments

TOWES Custom Assessments provide added validity and employee buy-in for corporate testing. Test results can be compared to local, regional or national occupational standards.

TOWES collaborates with each employer to ensure their custom assessment best achieves their individualized testing requirements. We provide a full range of support services for recruitment, selection, succession planning, safety, workforce training and development.

Semi-Custom

A semi-custom assessment includes the design and validation of new problem sets specifically related to industry and employer requirements. New problem sets are incorporated into modified versions of existing TOWES assessments that closely align with industry requirements. Client branding and custom reporting are also available.

Custom

A custom assessment includes the design and validation of an entirely new assessment using employer or industry specific documents and activities. Client branding and custom reporting are included.

TOWES has developed custom assessments for organizations like Suncor, Syncrude, Canadian Trucking Human Resources Council, Halifax Employers Association, Nova Scotia Power and Manitoba Aerospace Human Resources Coordinating Committee
