

TOWES

A Day on the Job

A Day on the Job is a paper-based Essential Skills curriculum that teaches Reading Text, Document Use and Numeracy skills needed for successful training and employment in industrial trades. The content will help apprentices and pre-apprentices acquire and expand the skills they need for technical training and success at work.

A Day on the Job workbooks include:

- Comprehensive activity sets that replicate typical tasks a worker would be required to complete on the job.
- Skill Builders that reinforce the basic competencies needed for work, such as, measuring and estimating, calculating area and perimeter, and using charts and graphs.

A Day on the Job can be completed independently by a learner, or used by trades instructors in the classroom. Approximately 30 hours of content is included.

Versions

A Day on the Job is available for the following occupations:

- Carpenter
- Electrician
- Welder
- Pipefitter

Audience

A Day on the Job is best suited to learners with skills at Level 2 or Level 3. All curriculum content is trade specific and is designed as supplementary material for pre-apprenticeship and apprenticeship training.
